

Data and Privacy File Guides

NFC & SE Platform

October 2024

File name NFC & SE Platform.csv

File description This file contains information about third party credentials provisioned into an iPhone secure element (SE).

Why Apple keeps this information Apple retains this information for as long as the credentials are provisioned to the secure element and for two weeks following credential deletion.

Field Name	Details
App Store Country Code	The country of the app store from which the provisioning app was downloaded
App Name	The application name that provisioned the credential
Apple ID Number	Apple account identifying number
Created Date	Date the credential was created
Last Modified Date	Date the credential was last modified
SEID	ID of the Secure Element of a user's device
Status	Status of the provisioned credential
